

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 13, 1999 LB 556

back and forth. You wouldn't have to have these county numbers. That's where you get...for example, if you're going to order 52 county, that's the wonderful Kearney County, but if you want to get all the way through the C's, you have to order 52 C through, you know, three or four hundred. That costs money.

SENATOR CHAMBERS: Uh-huh.

SPEAKER KRISTENSEN: If you'd go to just alphanumeric where it would be a series of letters and numbers, then you can trade from one county to another. There's really a purpose but, as we know, practically that probably doesn't happen, but there is a bill out there that would do it for the three largest counties. And that's where all the money would be saved anyway.

SENATOR CHAMBERS: Okay. And I'll turn my light on again if I need to pursue it.

SENATOR SCHIMEK: Senator Chambers, you are recognized to speak again.

SENATOR CHAMBERS: Since we don't have committee amendments, I'd better go ahead and finish up what little I was going to say. And Senator Kristensen raised an issue that I'd like to ask him about. Do you know, Senator Kristensen, the status of that bill?

SPEAKER KRISTENSEN: It's on General File but it's not prioritized.

SENATOR CHAMBERS: It could be amended to some bill, couldn't it? Couldn't an attempt be made to do that?

SPEAKER KRISTENSEN: If it's germane.

SENATOR CHAMBERS: Would this bill, would it be germane to this bill?

SPEAKER KRISTENSEN: I honestly don't know. I haven't...because this deals with a fee and not with that particular statute, I don't know.
